Telephone, Text and Fax Policy

You further expressly consent to receive marketing and non-marketing autodialed and/or prerecorded calls, text messages and faxes (including fax advertisements) from or on behalf of EC-Mobile at the number(s) provided. Your consent to receive calls or texts on your wireless device for marketing is not a condition of any purchase. Consent to receive marketing materials may be revoked at any time by contacting contact@ecmobile.llc or by calling 860-790-3517. Your wireless carrier's standard message and data rates may apply.

Text Messaging Terms and Conditions

EC-Mobile LLC or one or more of its affiliates or subsidiaries offer access to service messages via recurring SMS (Short Message Service) and MMS (Multimedia Message Service) text alerts. Enrollment in text alerts requires a user to provide his or her own mobile phone number with an area code within the 50 United States or the District of Columbia. By enrolling to receive EC-Mobile text alerts, you agree to these terms and conditions, which become effective upon your enrollment. You may be asked to verify your mobile phone number before the service will start. This requires responding to a text alert sent to your mobile phone confirming your enrollment in this Service.

You acknowledge that text alerts will be sent to the mobile phone number you provide to EC-Mobile. Such alerts may include limited information about surveys, and whoever has access to the mobile phone or carrier account will also be able to see this information. Once you enroll, the frequency of text alerts we send to you will vary. You will typically receive text alerts in accordance with the frequency of use of the Service. EC-Mobile does not impose a separate charge for text alerts; however, your mobile carrier's message and data rates may apply depending on the terms and conditions of your mobile phone contract. You are solely responsible for all message and data charges that you incur.

Please contact your mobile service provider about such charges. The following carriers are supported: AT&T, Sprint, Boost, Verizon Wireless, U.S. Cellular®, T-Mobile®, Alltel, Virgin Mobile USA, Cellular South, Unicel, Centennial and nTelos.

You may opt out of EC-Mobile marketing text alerts at any time. To stop receiving marketing text alerts, reply to the alert and text STOP. Texting STOP will opt you out of any and all future EC-Mobile marketing

text messages necessary. After you submit a request to unsubscribe, you will receive one final text alert from EC-Mobile confirming that you will no longer receive marketing text alerts. No additional marketing text alerts will be sent unless you re-activate your enrollment. For questions about marketing text alerts, text the word "Help" or contact EC-Mobile at Contact@ecmobile.llc or [860-790-3517](tel:860-790-3517). You also can change your text alert preferences on your mobile device by turning off Notifications in your device settings. However, turning off all Notifications including marketing text alerts may impair the proper functionality of the Service.

While the EC-Mobile text alerts (except marketing text alerts) are an essential functionality and feature of the Service and offered on an "as is" basis, said text alerts (including marketing alerts): (1) may not be available in all areas at all times; and (2) may not continue to work in the event of product, software, coverage or other service changes made by your wireless carrier. EC-Mobile may change or discontinue any of its text alert programs without notice or liability to you. EC-Mobile and its affiliates and subsidiaries and each of their respective officers, directors and employees are not responsible and shall not be liable for any losses or injuries of any kind resulting, directly or indirectly, from any EC-Mobile text alert program or from technical failures or delays of any kind. EC-Mobile reserves the right to cease delivery of text alerts to any person at any time in its sole discretion.

Cookies and Other Technologies

Like many other websites and online services, we collect information about Services traffic and usage patterns through the use of cookies, Web server logs, and other, similar technologies. We use this information for various purposes, such as to ensure that the Services function properly, to facilitate navigation, to personalize your experience, to understand use of the Services, to diagnose problems, to measure the success of our marketing campaigns, and to otherwise administer the Services.

Cookies are small computer files we transfer to your computer's hard drive. These small text files help us personalize content on our pages and provide programs like news alerts or updates or other push notifications. Your browser software can be set to reject or accept cookies. Instructions for resetting the browser are available in the Help section of most browsers.

Our use of cookies also allows us to collect and retain certain information about a website user, such as the type of Web browser used by our customer. Reviewing our Web server logs and our customers' use of our site helps us to, among other purposes, statistically monitor how many people are using our site and for what purpose.

Your IP address is a number that is automatically assigned to the computer that you are using by your Internet Service Provider. An IP address may be identified and logged automatically in our server log files whenever a user accesses the Services, along with the time of the visit and the page(s) that were visited. Collecting IP addresses is standard practice and is done automatically by many websites, applications and other services. We use IP addresses for purposes such as calculating usage levels of the Services, helping diagnose server problems, and administering the Services.

We may use Adobe Flash Local Stored Objects ("LSOs") and other technologies to, among other things, collect and store information about your use of the Services. If you do not want Flash LSOs stored on your computer, you can adjust the settings of your Flash player to block Flash LSO storage using the tools contained in the Website Storage Settings Panel. You can also control Flash LSOs by going to the Global

Storage Settings Panel and following the instructions (which may include instructions that explain, for example, how to delete existing Flash LSOs (referred to "information" on the Macromedia site), how to prevent Flash LSOs from being placed on your computer without your being asked, and (for Flash Player 8 and later) how to block Flash LSOs that are not being delivered by the operator of the page you are on at the time). Please note that setting the Flash Player to restrict or limit acceptance of Flash LSOs may reduce or impede the functionality of some Flash applications.

Tracking/Third-Party Advertisers

We may use third-party advertising companies to display advertisements regarding goods and services that may be of interest to you when you access and use the Services, based on information relating to your access to and use of the Services and other online services. To do so, these companies may place or recognize a unique cookie on your browser (including through the use of pixel tags). If you would like more information about this practice and to learn about your choices in connection with it, please visit http://www.networkadvertising.org/managing/opt_out.asp and <http://www.aboutads.info/>.

We do not respond to browser do-not-track signals.

We may use analytics providers that use cookies, pixel tags and other, similar technologies to collect information about your use of the Services and your use of other websites or online services.

Physical Location

We and our service providers may collect the physical location of your device by, for example, using satellite, cell phone tower, WiFi signals, beacons, Bluetooth, and near field communication protocols, when you are in or near an EC-Mobile site or otherwise utilizing EC-Mobile location-based services. We may use your device's physical location to provide you with personalized location-based services and content, including for marketing purposes. We may also use such information to understand traffic patterns in, near, and across our radius of operation. We may share aggregated statistics derived from the location and other information we collect with service providers and other third parties. This information will be used as set forth in our Privacy Policy, including, but not limited to, personalize your service, track your location, distances, estimate-time-of arrival (ETA) in real-time, identify the departure and arrival sites, calculate the estimate sites and commute time, and report said information. You may be permitted to allow or deny such collection of your device's location, such as through the settings on your mobile device and/or, to avoid the collection of location by beacons, by disabling Bluetooth. If you choose to deny such collection, we and our service providers may not be able to provide you with certain services and content.

For example, precise geo-location can be used to identify your device's latitude and longitude or your device's location capabilities (e.g., GPS or Wi-Fi) to help you find real-time tracking data. Or, on-site location through the use of your phone's blue tooth signal, LED light chip technologies or other technologies will permit EC-Mobile to provide additional services to you.

Fraudulent Sites, Spam & Phishing

Please be aware that there may be fraudulent websites that illegally use EC-Mobile logos, and other aspects of the EC-Mobile brand. EC-Mobile is in no way associated with any fraudulent websites. These sites may circulate their presence on the internet via spam email, or through fraudulent phishing practices.

These sites have not been authorized by EC-Mobile to use our name and we work aggressively to identify their source and have them shut down. If you are in receipt of this type of spam email, to help protect your privacy you should avoid replying to it or forwarding it to other people.

In addition to our official websites, EC-Mobile works with a number of third parties that host websites and micro-sites that provide information and services to our customers. If you are concerned that a website or an email may be fraudulent, please contact us by phone at 860-790-3517 or with your concerns.

Your Choices and Access

You can take yourself off our email list for promotional offers at any time by updating your Email Communications Settings in your Account under the “My Profile” section of the website or mobile application, or by following the instructions in those emails. If you opt out of receiving promotional emails from us, we may still send you important administrative messages, from which you cannot opt out.

You may stop the receipt of push notifications through your mobile device settings. However, if you disable push notification, EC-Mobile will be unable to provide all the functionalities of its services.

You can request the removal or modification of the personal information you have provided to us by sending an email to contact@ecmobile.llc. For your protection, we may only implement requests with respect to the personal information associated with the particular email address that you use to send us your request, and we may need to verify your identity and obtain information on the context in which you provided your personal information before implementing your request. We will try to accommodate your request as soon as reasonably practicable.

You can stop all further collection of information by the Company’s mobile application by uninstalling the Company’s mobile application. You may use the standard uninstall process available as part of your mobile device or via the mobile application marketplace or network. Uninstalling the Company’s mobile application will terminate your Account.

Note: If you uninstall the mobile application from your device, the EC-Mobile unique identifier associated with your install and/or device might continue to be stored. If you re-install the application on the same device, EC-Mobile might be able to re-associate this identifier to your previous transactions and activities.

Please note that we may need to retain certain information for recordkeeping purposes and/or to complete any transactions that you began prior to requesting such change or deletion. There may also be residual information that will remain within our databases and other records, which will not be removed.

Your Responsibility

By establishing an EC-Mobile account, you agree that it is your responsibility to:

- Authorize, monitor, and control access to and use of your account, User ID and password.
- Promptly inform us of any need to deactivate a password or an account by calling EC-Mobile at [860-790-3517](tel:860-790-3517).
